<b>Classification by Causes of Death</b>																										
<b>I.—General Diseases</b>																										
Typhoid .....																										
Scarlet Fever .....																										
Whooping Cough .....																										
Diphtheria and Croup .....																										
Measles .....																										
Influenza .....																										
Tuberculosis of the Lungs .....																										
Tubercular Meningitis .....																										
Tuberculosis of other Organs .....																										
Syphilis .....																										
Cancer of the Stomach, Liver, Breast .....																										
Cancer of the Peritoneum, Intestines, Rectum .....																										
Cancer of the Female Genital Organs .....																										
Cancer of other Organs .....																										
Diabetes .....																										
Alcoholism (acute or chronic) .....																										
Erysipelas .....																										
Other general diseases .....																										
<b>II.—Diseases of Nervous System</b>																										
Cerebro Spinal Fever .....																										
Simple Meningitis .....																										
Cerebral Hemorrhage, Apoplexy .....																										
Other diseases of the Nervous System .....																										
<b>III.—Diseases of the Circulatory System</b>																										
Acute Endocarditis .....																										
Other diseases of the Heart .....																										
Angina Pectoris .....																										
Diseases of the Arteries, Atheroma, Aneurysm .....																										
Embolism and Thrombosis .....																										
Arteriosclerosis .....																										
Valvular Heart Disease .....																										
<b>IV.—Diseases of the Respiratory System</b>																										
Broncho Pneumonia .....																										
Lobar Pneumonia .....																										
Pneumonia .....																										
Acute Bronchitis .....																										
Chronic Bronchitis .....																										
Grippe .....																										
Pulmonary Congestion .....																										
Other diseases of the Respiratory System .....																										
<b>V.—Diseases of Digestive System</b>																										
Diarrhoea and Enteritis (under 2 years.) .....																										
Diarrhoea and Enteritis (2 years and over) .....																										
Appendicitis .....																										
Intestinal Obstruction .....																										
Cirrhosis of the Liver .....																										
Infectious Diarrhoea .....																										
Cholera Infantum .....																										
Other diseases of the Digestive Organs .....																										
<b>VI.—Diseases of the Genito Urinary System</b>																										
Acute Nephritis .....																										
Chronic Nephritis .....																										
Bright's Disease .....																										
Other diseases of the Kidneys and Annexa .....																										
<b>VII.—Puerperal Condition</b>																										
Puerperal Septicemia .....																										
Accidents of Labor .....																										
Hemorrhage .....																										
<b>VIII.—Diseases of Skin and Cellular Tissue</b>																										
Pemphigus .....																										
<b>IX.—Diseases of Bones, Organs of Locomotion</b>																										
Diseases of the Bones .....																										
<b>X.—Malformations</b>																										
Other Congenital Malformations .....
